

- Gather your pressed Corner Gauge finish & 3 pieces of coordinating cotton fabric. A sewing machine will come in very handy here for this quick finish, but hand-stitching will also work.
- Trim all 4 pieces to 4 1/8". I found it was easier to cut the cotton fabric first, then take one piece & center it over the stitching (hold it up to the light to check if its centered), then trim stitching to 4 1/8".
- Place 2 pieces of the cotton fabric, right sides together, & sew a seam 1/4" away from the edge.
- Place the stitching & remaining piece of cotton fabric right sides together & sew a seam 1/4" away from the top edge of the stitched piece.
- Press seam up, away from the linen on stitched piece & in the opposite direction on the all cotton piece.

- Match center seams (pressed sides should snug up together to help match the seam) and pin with right sides together. Sew around all 4 sides with a 1/4" seam allowance. Leave an opening on the short end (all cotton end).
- Trim corners & turn right side out. Gently poke out corners & press.
- Tuck top fabric down into square to form lining for the Corner Gauge keeper.
- Finger press all around the top edge to give it a crisp finish.

- You are done—all ready to Dream of the Wild Salt Air!

The beach has always been a Happy Place for me. I have many childhood memories of summers at the beach. Even now, as I live completely land-locked in the middle of the country, I am able to daydream & take a 'beach break' - it's one of my very favorite themes to design around.

*Enjoy the Stitch,*
