

I'm New Here — *chart correction*

As I was stitching the bluebird in this adorable Baby Sampler, I thought he (or she) needed a little more wing definition! I made way for a little negative space & thought it was adorable—however, I neglected to read my note on the working copy to update the primary chart!

See the included Bluebird charted below for a little wing action! (symbols are the same, chart is provided for wing placement only)
